- Complete alarm system - no extras needed
- Full tamper and radio jamming protection
- Complies with British Standard BS6799 Class I to Class IV Part A
- Upgrade to control panel operation with the MU6450TX

Summary

SolarGuard is the original solar powered wire free alarm from AEI Security and was first registered with UKs patent office in 1996.

You choose how you want to configure your system and don't worry about changing your mind later because we've designed this kit to be upgradeable to full control panel operation.

Buy this system and you are on the right road to protection regardless of what you choose in the future
